

## Lithofin WEXA Multi-Purpose Cleaner

### Description

Lithofin WEXA is a universally usable multi-purpose cleaning concentrate. A combination of alkaline cleaning components and mild solvents allow for a wide field of use. Lithofin WEXA can be diluted with water and can therefore be optimally adjusted for all uses.

#### Technical Data:

Density: ca. 0,95 g/cm<sup>3</sup>

pH-Value: ca. 10 (concentrate)

Appearance: yellowish, milky

Odour: mildly aromatic, citrus-like

### Properties

Lithofin WEXA dissolves and removes old wax layers, care product residues, some sealants, self gloss films, oily and greasy dirt, rubber and tar marks, paint, etc.

### Field of Use

For thoroughly cleaning all types of stones, tiles and other water and solvent resistant surfaces. Lithofin WEXA is universally usable in house, garden, garage, workshop and industry. Can be used as a nearly odourless wax and oil remover. Suitable for indoor and outdoor use.

### Verarbeitung

Apply Lithofin WEXA with a brush and allow it to work for 5 to 20 minutes depending on the stubbornness of the dirt deposit. Do not allow the product to dry, brush occasionally. At the end of the working time, add water and brush. Remove the product from the surface with plenty of water, either wiping or rinsing. In very stubborn cases, repeat this process with longer working times and brushing. In case of light deposits, Lithofin WEXA can be diluted up to 1:20 with water.

Please Note: solvent sensitive surfaces, such as rubber, plastics, newly varnished surfaces, etc. may be attacked by the product. In cases of doubt, test the product in an inconspicuous area.

Coverage: approx. 5-7 m<sup>2</sup> per litre when used undiluted, up to 100 m<sup>2</sup> when used diluted.

### Storage

Keep cool, closed and dry.

Shelf life of up to two years.

### Environmental Protection

Surfactants are biologically degradable in accordance with EU-regulations. Free of chlorinated hydrocarbons.

Disposal: Containers are made of environmentally friendly tin plate. Clean containers can be recycled through collection systems.

Ausgespülte, Gebinde können über Wertstoffsammelsysteme (siehe Hinweis auf Etikett) entsorgt werden.

### Safety

Contents: anionic surfactants ; non-ionic surfactants; phosphates; auxiliary agents.

General Information: as with all cleaners, avoid prolonged contact with skin or wear rubber gloves.

First Aid Procedures: in case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. In case of ingestion, do not induce vomiting. If swallowed by mistake drink plenty of water and seek medical treatment.

Emergency Procedures: in case of spill or other release, take up with absorbent material (e.g. sand, sawdust, general-purpose binder). Product does not burn, fire-extinguishing activities according to surrounding.

Additional Information is listed on the Material Safety Data Sheet.

ADR2003: not a dangerous good.

### Packaging

1 litre bottle with childproof cap (10 bottles per box)

5 litre canister (2 canisters per box)

Please note: information about environmental protection and safety applies to the (concentrated) product as delivered. When the product is diluted, these properties may change.

This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Where no previous experience is available, or in cases of doubt, test the product in an inconspicuous area. (GB11.04gps/11.03)
